  2019 - 2022

PROJECTS

College Project – 1

Career Degree College •   Sep 2021 – Nov 2022

Title : **MAIL MANAGEMENT SERVER**

Role : Team Lead

- **Mail Server Management** is the replica of Google **GMAIL** Webpage. In This Project We linked all the pages to each other in a specified path. The Interconnect so correctly done that it will be monitoring as the original webpage. If we decide to go to certain page, it will take it. We also given all the buttons and links to access the pages and websites. Even though it is a basic project we made sure that it is as good as the original. And at last, we achieved it. But we can do even better with the better guidance.

College Project – 2

Career Degree College •   Dec 2021 – Apr 2022

Title : **ONLINE SHOPPING SERVER**

Role : Team Lead

- **Online Shopping Server** is the replica of **Amazon** and **Flipkart** Webpage. In This Project We gave links to products we gave in webpage. When the image of the picture is clicked it will be sent to the place of the product where all the details of the product are shown. The Interconnect so correctly done that it will be monitoring as the original webpage. If we decide to go to certain page, it will take it. We also given all the buttons and links to access the pages and websites. Even though it is a basic project we made sure that it is as good as the original. And at last, we achieved it. But we can do even better with the better guidance.
